

VIRGINIA MUST FIND NEW COACH

Question of Successor to Crawford Will Soon Be Considered.

[Special to The Times-Dispatch.]
Charlottesville, Va., December 7.—The General Athletic Association of the University of Virginia will, at an early date, consider the question of the selection of a football coach for next year, as, owing to the policy of the organization, Coach Crawford, whose work this year was so highly satisfactory, is not eligible to succeed himself.

It became known to-day that "Jimmy" Driver, whose work on the defensive in the position of half back was a feature of nearly every game this fall, will not return to the university. It is probable that he will become next year the physical director at William and Mary College, where he holds an enviable record as an all-around athlete.

A man who will not be eligible for next year's election is Varner, who, though having played at the university only one season, was a member of the Virginia Polytechnic Institute team for three years. He held down one of the tackle positions during the season just closed.

Speaking of next year's prospects on the gridiron, to-day's issue of College Topics has the following:

"Eight members of this year's football team will comprise the nucleus for the 1911 eleven, with the possibility of a ninth man, whose eligibility is in question. This was ascertained at the annual banquet given to the 'varsity' men of this year's squad when, in answer to a request of Dr. William A. Lamb, director of athletics, for this information, the following men held up hands:

"Finlay, left end; Todd, left half back; Bowen (captain for 1911), right end; Towles, right guard; Pankey, left guard; Wood, center; Jones, full back; and Grant, sub quarter back.

"The man whose eligibility is in doubt is Captain Todd, who has played for a short while in a single game. For three years he has been a star tackle on the varsity, making the All-South Atlantic last year and this year."

Tournament Starts To-Day.

Atlanta, Ga., December 7.—More than a score of the leading professional golfers of the country have arrived here for the open golf tournament, which starts on the East Lake links of the Atlantic Athletic Club to-morrow. The play will consist of a four-some Thursday, with medal play Friday and Saturday, eighteen holes in the morning and afternoon of both days.

Victory for Hackenschmidt.

Chicago, Ill., December 7.—George Hackenschmidt defeated Jesse Westergaard, the Iowa wrestler, in two straight falls to-night. The first fall was taken in one hour, two minutes and fifteen seconds, with a double bar arm hold. The second occurred in eleven minutes and twenty seconds, with a reversed body hold.

THIRTEEN MEN GET R. M. MONOGRAM

Athletic Board of Randolph-Macon Makes Awards—New Captain Elected.

[Special to The Times-Dispatch.]
Ashland, Va., December 7.—The athletic board of Randolph-Macon has conferred the R.-M. football monogram on the following thirteen men: Harry A. Rowe (captain), W. B. White, P. B. Hopkins, F. M. Wray, F. E. Egan, M. N. Fisher, J. C. Simpson, Copley, Ed. Jordan, J. F. Woodhouse, J. C. Chapman, E. B. Turner, B. B. Bane. The rule for awarding letters is very stringent here, a man having to play in four games, at least two of which are championship games, before he can wear the monogram. Ever since the end of the season almost the sole topic of conversation on the Yellow Jacket campus has been the winning of the cup, how Warren took a square of material and whipped them into the eleven which won the championship. The leads of newspaper dopes on "huck" have come in for a good share of discussion. Here, however, the credit is given to the systematic way in which Warren developed each separate part of his team by weeks of work, and his judgment in the style of play, namely, in using only defensive tactics and the outside kicks. A careful analysis of all three championship games shows that they were almost identical in the plays used. However, this may be the last so far as the Yellow Jackets are involved always ends with "Oh, well, we were the cups." This makes three cups that Randolph-Macon teams have won under Warren, and of the other seasons they have tied three.

The lettered players have elected J. A. Chapman captain of the team for 1911. Chapman has played right guard for two years, and has been a star player since the year before. He is a husky athlete, weighing over 150 pounds. He is a splendid defensive player and is also good at opening holes on offense. The manager and his assistant will be elected by the athletic board at its next meeting.

Jacksonville, Fla., December 7.—The Atlantic Beach selling stake, valued at \$1,000, the afternoon's feature at Monticello Park, was won by Ragman, favorite in the betting 1 to 2, after a hard stretch drive, in which Glucose forced the winner to do his best. TEXAS IS MAKING RAPID GROWTH

Greatest in Point of Area, It Now Ranks Fifth in Population.

Washington, D. C., December 7.—Texas, the largest State in the Union in point of area, made greater progress in its increase in population during the last ten years than any of the States which exceed it in the number of inhabitants, and now takes rank as fifth State in population, passing Missouri, which in 1900 held that place. Census statistics issued to-night show that only New York, Pennsylvania, Illinois and Ohio surpass Texas in population, while Missouri drops back to eleventh place, having been passed by Massachusetts during the last ten years.

Texas' population increase would give her four more representatives in Congress if the present ratio of apportionment is retained when Congress enacts the new apportionment law. Only thirty of the 215 Texas counties showed decreases in population, and these were slight.

The population is 3,896,542. This is an increase of 847,832, or 27.8 per cent, over 3,048,710 in 1900.

The increase from 1890 to 1900 was 813,187, or 26.4 per cent.

Population of the Texas counties containing the principal cities is: Bexar, 119,676; Dallas, 135,748; El Paso, 82,599; Galveston, 115,473; Harris, 115,693; Jefferson, 38,182; McLennan, 73,250; Tarrant, 108,572; Travis, 55,620; Webb, 22,569.

No city population statistics for Texas were issued.

WILL GIVE MEDALS FOR LONG SERVICE

Militiamen Who Have Served More Than Six Years Will Be Honored.

GLAZEBROOK HEADS LIST

He and Colonel Stern Have Forty Years to Their Credit.

As a badge of distinction for long and honorable service in the Virginia Volunteers, medals will shortly be issued by Adjutant-General W. W. Sale to all the officers and enlisted men who have had not less than six years of service. There will be a number of different designs, each representing a different number of years.

Orders to this effect were issued yesterday by the adjutant-general. The new plan is expected to prove not only interesting to the men affected, but also to stimulate others to earn and wear such a badge. It was realized that those who have remained in the service for years should be known and should be made distinct from those who have served only a short time.

Plan for Medals.

To every officer and man who has had six years of service there will be issued a bronze medal. For those who have remained with the militia for nine years, there will be added a silver bar to the bronze piece, while for twelve years, there will be two bars. Fifteen years of service entitled the soldier to a silver medal, eighteen years a silver medal with a gold bar, and twenty-one years, a second gold bar.

Gold medals will be presented to those who can show twenty-four years.

CATARRH A SYSTEMIC BLOOD DISEASE

Catarrh is not merely an affection of the mucous membranes; it is a deep-seated blood disease in which the entire circulation and greater part of the system are involved. It is more commonly manifested in the head, nose and throat, because of the sensitive nature of these membranes, and also because they are more easily reached by irritating influences from the outside. The symptoms of Catarrh, such as a tight feeling in the head, nose stopped up, throat clogged and dry, hacking cough, etc., show that the tiny blood vessels of the mucous membranes are badly congested and inflamed from the impurities in the circulation. To cure Catarrh permanently the blood must be purified and the system cleansed of all unhealthy matter. Nothing equals S. S. S. for this purpose. It attacks the disease at its head, goes down to the bottom of the trouble and makes a complete and lasting cure by PURIFYING the blood. Then the inflamed membranes begin to heal, the head is cleared, breathing becomes natural and easy, the throat is no longer clogged, and every unpleasant symptom of the disease disappears. S. S. S. is the greatest of all blood purifiers, and for this reason is the most certain cure for Catarrh. Book on Catarrh and medical advice free to all who write.

STIRRING INCIDENT OF CAMP RECALLED

Staff Officer of Georgia Governor, Now Senator Terrell, Sought to Kill Editor of Town Topics.

Washington, December 7.—The appointment of ex-Governor Joseph M. Terrell, of Georgia as United States Senator, recalls an incident in the life of the ex-Governor, which, while interesting, has never before been printed.

During the United States army manoeuvres at Manassas, Governor Terrell and his staff visited the battle grounds. The late General Corbin was in command, and the Governor of Georgia was received with the roar of cannon and all military honors.

On the afternoon of the day of his arrival Governor Terrell, escorted by his staff, in full dress uniform, paid an official visit to General Corbin at headquarters. The general was surrounded by the members of his staff and a few others, and in introducing those of his party General Corbin called the name of a certain Colonel Mann. Thereupon a colonel of the governor's staff said:

"Colonel Mann, are you the editor of Town Topics?"

"I am," replied Colonel Mann, with a pleased smile.

"Then you are the man I have been looking for for years," replied the Georgian, "and I am going to kill you now."

Suited the action to the words, Governor Terrell's staff officer drew his trusty pistol from his hip pocket, and rushed the editor of Town Topics. Before the pistol could be fired, however, the officers of General Corbin and Governor Terrell seized the Georgian and held him while Colonel Mann escaped.

At the urgent request of General Corbin the whole matter was hushed up for the reason that it was thought that the publication of the incident might tend to bring discredit upon the command.

The Georgian colonel declared at the time that the reason he desired to take the life of Colonel Mann was because of an infamous falsehood that had been printed in Town Topics concerning a woman, a member of his family.
